

“The Monster of Elmore Forest”

Two young boys and their older college student sister discovers a ghastly beast while walking in the Elmore Forest of Uncanny PA that finds an interest in their sister, as part of a bigger nefarious plot. The three have to discard their superstitions of monsters that hunt us in our nightmares and face the real monster in front of them.

CARLA GREENE: CARLA GREENE, age 23, any race, attractive, energetic, and academically ambitious.

Carla SIDES SCENE 1: Carla and her friend Tiffany are walking through the woods discussing the discovery of a new animal.

CARLA (O.S.)

This will not only get us an “A” but we will probably get hired to work on big historical digs in Brazil or something.

TIFFANY (O.S.)

You better be right! All we need is soil samples. Do you think it was an actual bipedal humanoid?

CARLA

Tiffany I found the hair follicles by those bushes. I tested them. Remarkable! The protein strands were of no known origin of our current Cenozoic or even the Phanerozoic area!

TIFFANY

Are you saying that it’s prehistoric-dinosaurs?

CARLA

Yes! This is the find of the century! Brilliant! Just brilliant! They couldn’t find the Lochness Monster, well I will give them a Sasquatch!

The bushes rustle, startling Tiffany and Carla!
