

DR. SETH LUCAS

Dr. Seth Lucas is a black doctor and year older than his sister Nancy. He is nurturing and protective of his younger sister.

NANCY

Thank you for coming over on such a short notice. Is Russell going to be okay?

SETH

I think so. Maybe the stress of work, the pressure of bills, life etc got the best of him today. Mental health is not my specialty. I am family medicine. However he seemed very confident that there was a TV show with him in it. I know of a good psychologist Doctor Rachel Tuesday. She can talk with him for free as a favor to me.

NANCY

Psychologist?

SETH

I am not saying that he has any dissociative disorders or anything. But his level of commitment to what he believe he has seen gives me some pause.

(looks at watch)

Well I gotta get home. Tiana has a paper to write and I am on homework duty.

NANCY

Is she pretty?

SETH

Who? The doctor?

Nancy gives a nod.

SETH (CONT'D)

What difference does that make?

NANCY

A lot of difference.

SETH

Yes she is very beautiful and she is very married. Is your self esteem still intact?

NANCY

Wise ass!
